Don Kendall	Curry County	Emergency Services	kendalld@co.curry.or.us
Margaret McHugh	Lower Rogue WC	Facilitator	maggie.mchugh@currwatersheds.org

#### Updates:

Homeowner Assistance Project: Don is still researching archeology contracts. Mike Pope reported that the new grant manager, Dennis Fiore, believes we need only meet state standards rather than the more extensive and expensive federal standards. Don has copies of the old contracts and as soon as he finds out which standards need to be met, he will modify the contracts for approval by County Counsel and put them out for bid. Kim offered to ask Kristen in their office – she will send Kristen's contact information to Don. Sherrie said that she had two estimates for surveys: \$250/homesite, or 40 hours at \$2500 to \$3000. She will also send additional information to Don. Maggie will send them contact information for each other.

Title III Firewise Grant: Don reported that Chris is still in discussion with CFP management in Coos Bay on how the grant monies should be used. Hopefully, C & D will have a resolution ready to share with the Team at the September meeting.

Gorse Treatment: Sherrie, Mike Pope, and Chris Cline will visit the gorse treatment area at Harris Beach State Park today and discuss future treatments, roles, etc. Mike state that he had visited Cedar Terrace and was pleased at how it looked. The gorse appears to be losing to the trees.

**Next Meeting: September 20, 2011; 0900 – 1230; F2F**  
Forest Service Conference Room, Gold Beach

August Agenda: Firewise Forester Project Proposals  
Water Brochure  
Future training goals  
Gorse Treatments

Please send all corrections or edits on the notes or agenda to me by **September 3**; you can contact me at [maggie.mchugh@currywatersheds.org](mailto:maggie.mchugh@currywatersheds.org), or 541/247-2755 ext 4#.
